

## **STUDIES AND PROJECTS:**

- Site Principal Investigator. E1208: A Phase III Randomized, Double Trial of Chemoembolization with or without Sorafenib in Unsectable Hepatocellular Carcinoma (HCC) in Patients with and without Vascular Invasion. 2012.
- VISN 3 HCC System “Lean” Redesign for Hepatitis. Involving 6 hospitals in the VA System. Goals: reduce patient and hospital cost, decrease replication of care and testing, reducing wait time to patients, increasing tele-health use and increasing patients’ access of specialists. 2011- Present.
- VA Manhattan-Brooklyn HCC Center of Excellence National Designation. Only three VA were chosen nationally. Goals: establishing guidelines for screening, diagnosis and treatment for veterans with Hepatocellular Carcinoma. 2009-Present.

## **LECTURES AND EXAMINATIONS:**

### **Head To Toe NYU Conference.**

Interventional techniques and review.  
2007-2012

### **Hepatology Grand Grounds- Guest Speaker.**

Transarterial Hepatocellular Therapies.  
SUNY Downstate Medical Center.  
February 12, 2012

### **Medical Student Lectures.**

2009-2010

### **Mock Radiology Board Examiner for NYU.**

2007-2009
